COVER LETTER

Dear Sir/Madam,

Allow me to introduce myself briefly. I recently graduated from WYTU, and throughout my academic journey, I learnt in a diverse array of IT subjects in programming and networking. Engaging in numerous challenging projects, I developed a profound understanding of teamwork and collaboration. While my primary aspirations lie in the IT domain, I am confident in my ability to excel across various disciplines due to my adaptability. My previous experiences in digital marketing and client communication, gained through freelance projects, have further fortified my versatility. Moreover, my artistic and design concepts not only contribute to my survival in the job environment but also play a crucial role in my continuous improvement, allowing me to bring innovative ideas and enhance my skills. Given the opportunity, I am determined to prove my worth through relentless dedication and exceptional performance. I eagerly await the prospect of contributing my skills and commitment to your esteemed organization. Thankfully and hopefully, please consider me in this position.

EDUCATIONAL SKILLS

Education

- BE-IT (West Yangon Technological University)

Skills

- Language: English (Intermediate Level)

Software

- Figma, Procreate, Adobe Illustrator, Adobe Photoshop

Volunteer and Freelance

- I've been working as a freelance illustrator since 2019. I do sketch portraits, vector portraits, logos, doodles, mascots, and tattoos. I also create animations for music videos.
- Apart from illustration work, I volunteered and organized events at my university to share knowledge and ideas. I even raised funds by designing shirts, bags, and computer accessories.
- I also funded from designing major shirts, bags and computer accessories for major department.

WORK EXPERIENCE

Field-Experience (2016-17)

- Examine and research at Myanmar Radio Television Station (MRTV).

Tracking Mobile Car with Bluetooth GPS Network (2017-18)

- Best Project Choice Award by the IT Department of WYTU.
- I contributed to the design, structure, and implementation phases in project.

WYTU Website for Students and Teachers (2018-19)

- Second group project and I involved as the UI/UX designer.

Started my Freelance Carrier (2019)

- I started as a professional illustrator and administrator of KoLinn's Art page, where I created portrait illustrations for clients. After that, I moved on to designing logos and tattoo illustrations. Later in 2021, I began working on animation projects for music videos.

Began Working at iMyanmarHouse.com (2022)

I started my career as an illustrator at **iMyanmarHouse.com** and within one year, I completed three diverse projects.

- The first one involved illustrating **NFT** project, **Deep Space Aliens**, became the first project to launch with our own website. I successfully executed the accompanying marketing strategy, leveraging social media platforms for promotion.
- The second project entailed creating **NFT** photos for **Mecha Robots**, which I executed flawlessly in line with the provided script.
- For the third project, I focused on **Mascot Character** for **iMyanmarHouse**, by collaborating with Content Team to produce visually creative design posts for public holidays and special occasions.

This endeavor played a pivotal role in maintaining a consistent and appealing brand presence. By skillfully navigating these diverse projects, I honed my abilities as an illustrator and contributed significantly to **iMyanmarHouse.com's** creative endeavors.

Final Thesis Paper for Graduation (2023)

- Traffic Analysis over Wi-Fi and GPRS

CERTIFICATES

- CCNA (Routing and Switching)

ACTIVITIES

- organizer in all major campus events for Fresher Welcoming and Annual Ceremonial Events
- member of Association of WYTU Illustrators WYTU and gave knowledge sharing sessions
- volunteer at university for funds finding program
